

# After School Club

## NEWSLETTER

### Welcome

Welcome to the winter addition of our afterschool news letter.

### Activities

Over the last term we have carried out a wide variety of activities including trips down to the woodland area, talent contests, big oand small art projects, ICT, song writing and many more .

### Victorian week

In the week beginning 23rd of November we held a Victorian week at after school club.

We all took part in experiencing the many differences in the way we live now to how the victorian people lived back in the 1900's.

We participated in a nature study , created our very own victorian show , made a scrap book and created a dance based on the victorian waltz.

A big well done to all that participated and even dressed up for the occasion.

Our next themed week.

The next themed week was voted by the children and we decided to have a roman themed week in which we will learn how the romans lived and how they made such in impact in our every day life. More details coming soon...

### This term

This term will include many days that will be planned and organized by individual children . We have already had a woodland trip, talent show and a abstract art activity. These activity's are to give the children a sense of responsibility along with planning using their interest's. We will also be doing a variety of festive activity's.

### And finally

If you would like to make any suggestion regarding ways we can improve the club, please write them down and send them in a sealed envelope addressed to Mr Wills. Your views matter to us
