

After School Club Newsletter

What have we been up to?

Welcome to this terms news letter. This term at After School Club has been a very busy one and we have had a couple of very special guests. We started our term with a career week where some of the children had interviews for the jobs they would like when they are older. The children showed good knowledge about their chosen professions. The children then had their chance to do the interviewing. The children were told that they would get the chance to interview Mrs. Hopkins and most of the children spent an evening thinking of what to ask and writing up questions to ask our head teacher. They all agreed to offer Mrs Hopkins the job which she was very relieved about. The children also had a visit from our local police department and all had a chance to ask questions along with sitting in a police car.

Zoo Lab

We have also recently had a very special visitor from Zoo Lab and he brought many of his animal friends with him for us to look at and hold and find out lots of wonderful and strange facts about his creatures. We saw and held a corn snake, rat, giant African snail, millipede, gecko. and we saw a tarantula.

Anything else?

As the weather has brightened up we have been doing some exploration outside and sports as well as many art and dance activities alongside some cooking with Kay and Jay.

Next theme week!

The next theme week will be based on food from different cultures through classic stories and traditions. The countries we will be exploring will be India, England, Italy, China and Brazil.

A big thank you

The adults and children would like to say a big thank you to Mrs Pilkington for her jewellery workshop. The children and adults took part in making bracelets and key rings that were nothing short of beautiful and lots of fun to make.

Mr D Wills
